INDEPENDENT AUDITORS' REPORT

Board of Trustees
The Minneapolis Foundation
Minneapolis, Minnesota

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of The Minneapolis Foundation (a nonprofit organization), which comprise the statement of financial position as of March 31, 2022 and 2021, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Minneapolis Foundation as of March 31, 2022 and 2021, and its changes in net assets its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of The Minneapolis Foundation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Minneapolis Foundation's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Minneapolis Foundation's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Minneapolis Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

The Minneapolis Foundation (TMF or the Foundation) provides grants and other assistance to Minnesota nonprofit organizations, primarily in the areas of education, economic vitality, civic engagement, arts and culture, and health and the environment.

Basis of Presentation

The financial statements of the Foundation have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis of Consolidation

The accompanying financial statements include the accounts of TMF and its former affiliate, Propel Nonprofits (collectively, the Foundation), both of which are separate nonprofit corporations located in the Twin Cities. Propel Nonprofits was a Type I affiliate of TMF. Prior to January 21, 2021, the bylaws of Propel Nonprofits allowed TMF the power to exercise sufficient control over Propel Nonprofits to include them in the TMF financial statements. In fiscal year 2021, Propel Nonprofits' bylaws were amended with the approval of TMF to remove the power of TMF to elect the majority of Propel Nonprofits' board members. As a result of this change, there was no longer sufficient control by TMF to necessitate the consolidation of Propel Nonprofits. The deconsolidation is reflected at January 21, 2021, on the statement of activities as deconsolidation of affiliate.

Net Asset Classification

The Foundation follows the Uniform Prudent Management of Institutional Funds Act (UPMIFA) that provides accounting guidance on the classification of endowment fund net assets for states that have enacted versions of the UPMIFA, and enhances disclosures for endowment funds. Under UPMIFA all unappropriated endowment fund assets are considered restricted.

Under the terms of the Articles of Incorporation, the board of trustees has the power to modify or eliminate any restriction, condition, limitation, or trust imposed with respect to any fund or property the title of which has become vested with the corporation if, in the sole judgment of the board of trustees, such restriction, condition, limitation, or trust becomes unnecessary, incapable of fulfillment, or inconsistent with the charitable need of the community or area served by the Foundation. As a result of the ability to remove any restriction, all contributions not classified as with donor restrictions are classified as without donor restrictions for financial statement purposes.

Net assets without donor restrictions represent that portion of expendable funds that is available for support of the programs and operations of the Foundation.

Net assets with donor restrictions consist of irrevocable charitable trusts, lead trusts, purpose restricted contributions, restricted contributions receivable, and donor-restricted endowment funds. When donor restrictions expire, that is, when a stipulated time restriction ends or a purpose restriction is fulfilled, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statements of activities as Net Assets Released from Restriction.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Endowment Investment and Spending Policies

The Foundation has adopted investment and spending policies for endowment assets that seek to provide a predictable stream of funding to programs supported by its endowment while maintaining the purchasing power of the endowment assets. The Foundation's spending and investment policies work together to achieve this objective. The investment policy establishes a long-term investment objective through diversification of asset classes. To achieve its investment objectives over long periods of time, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The investment strategy targets a diversified asset allocation that includes, but is not limited to, domestic equities, non-U.S. equities, fixed income, real estate, and hedged equities. The majority of assets are invested in equity or equity like securities. Fixed income, real estate, and hedged equities are used to lower short-term volatility. Diversification by asset class, investment style, investment manager, etc., is employed to avoid undue risk concentration and enhance total return. The primary performance objective is to achieve an annualized total rate of return, net of investment fees, that approximates or exceeds 5% plus inflation over long periods of time. Actual returns in any given year may vary from this amount.

The spending policy determines the amount of money in a given year that will be distributed from certain endowed funds of the Foundation. For the year ended March 31, 2022, this set dollar amount from the year ended March 31, 2021 was adjusted by inflation (plus 5% of any new gifts). Spending in future years will be the prior year spending, adjusted for inflation, plus 5% of any new gifts for the year. There is also a band such that spending will not exceed 6% or fall below 2% of current endowed assets. For all other endowed funds (including donor advised and designated beneficiary funds), the spending policy is 4% of a moving 12-quarter average market value plus any administrative fee charged by the Foundation. The Foundation's objective is to maintain the purchasing power of endowment assets as well as to provide additional real growth through new gifts and investment returns.

Cash and Cash Equivalents

Cash equivalents include all highly liquid securities with original maturities of 90 days or less, except for those short-term investments managed as part of long-term investment strategies. At times, the balance may exceed federally insured limits.

Investments

A substantial portion of the valuations included in the financial statements is provided to the Foundation by third parties and are not calculated by the Foundation. These third parties follow GAAP. In accordance with these principles, investments are carried at fair value based on quoted market prices or are recorded at approximate fair value based on financial models of hypothetical transactions. Some valuations may also be determined and approved by the managers or valuation committees of the funds in which the Foundation invests. The fair value assigned to a particular security by the fund does not necessarily reflect the amount that would be realized. In addition, in light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular security by the fund is accurate.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investments (Continued)

Professional standards allow entities the irrevocable option to elect to measure certain financial instruments and other items at fair value for the initial and subsequent measurement on an instrument-by-instrument basis. The Foundation has elected to measure most investments at fair value, but does hold certain investments at cost.

The Foundation invests in a variety of investment vehicles, including limited partnerships, which may invest in corporate stocks, bonds, real estate, and other investments with limited liquidity.

In general, investments are exposed to various risks, such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of financial position.

Donated investments are initially recorded at estimated fair value at the date of donation. Realized and unrealized gains and losses are recognized in the period in which they occur.

Program-Related Loans Receivable

The Foundation has made loans to nonprofit organizations at below-market interest rates. Repayment schedules and interest rates on the loans are varied. At March 31, 2022 and 2021, there were no past due program-related loans.

Beneficial Interests in Trusts

Beneficial interests in trusts consist of assets held in charitable remainder trusts, beneficial interests in charitable remainder trusts, and beneficial interests in perpetual trusts.

Assets Held in Charitable Remainder Trusts – The Foundation is the beneficiary of charitable remainder trusts in which the Foundation also serves as trustee. The assets of these trusts are recorded at fair value in the statements of financial position. The related obligations to the donors or specified parties are recorded separately at the present value of the estimated future payments to be made under the specific terms of the trusts. Changes in the net assets of the trusts are recorded as gains or losses (change in value of trusts) in the statements of activities. Net assets and changes in net assets are recorded as with donor restrictions.

Beneficial Interests in Charitable Remainder Trusts – Donors established and funded trusts under which specified distributions are made to a designated beneficiary or beneficiaries over the trusts' terms. Upon termination of the trusts, the Foundation receives the assets remaining in the trusts. Beneficial interests in charitable remainder trusts are recorded at the fair value of the trusts' assets net of the present value of the estimated future payments to be made under the specific terms of the trusts. Changes in net assets of the trusts are recorded as gains or losses (change in value of trusts) in the statements of activities. Net assets and changes in the net assets are recorded as with donor restrictions.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Beneficial Interests in Trusts (Continued)

Beneficial Interest in Perpetual Trusts – The Foundation is the beneficiary of several perpetual trusts held by a third party. Under the terms of the trusts, the Foundation has the irrevocable right to receive the income generated by the trust in perpetuity. The beneficial interest in the perpetual trusts is recorded at the fair value. Changes in net assets of the trusts are recorded as gain or losses (change in value of trusts) on the statements of activities. Net assets and changes in the net assets are recorded as with donor restrictions. Distributions received from these trusts are recorded as investment income without donor restrictions.

Furniture, Fixtures, and Equipment, and Leasehold Improvements

Furniture, fixtures, and equipment are stated at cost at the date of acquisition or fair value at the date of donation and depreciated over their estimated useful lives using the straight-line method. Items are generally capitalized greater than \$3,000. Leasehold improvements are depreciated over the life of the improvement or the term of the lease, whichever is shorter.

Grants Payable

Unconditional grants are recognized as expenses in the period when approved at their fair values. Grants subject to conditions are recorded when the conditions are substantially met.

During the year, grants have been approved and disbursed to organizations in which some of the board members may be involved through board or other advisory relationships. It is the Foundation's policy to have each board member disclose the conflict of interest. These board members are prohibited from voting on grants to these organizations in those instances.

Deferred Lease Credits

The Foundation negotiated renewals for the lease of office space in 2014 (through March 31, 2022) and again in 2019 (through August 31, 2027). Both times the Foundation's landlord agreed to an additional \$328,905 for leasehold improvements upon renewal of the Foundation's lease. The full amount from 2014 was used and received, and is being amortized through that negotiated term. As of March 31, 2021, \$273,502 of the 2019 dollars had been used and are being amortized through the new negotiated term. Additionally, the lease payments on the office space increase over time. The deferred rent portion related to these payments is amortized over the life of the lease. The remaining balance of contributions and deferred rent was \$315,097 and \$397,125 at March 31, 2022 and 2021, respectively.

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Amounts Due Beneficiaries

The Foundation has entered into unitrust and annuity agreements that provide, among other matters, that the trustee shall pay to the beneficiaries an annual income payment until the income obligation is completed in accordance with the donor's trust agreement. A liability is recorded for charitable remainder trusts in which the income is distributed to designated beneficiaries during their lifetime, and trust assets are controlled by the Foundation. Upon the death of the beneficiaries, the remainder of funds transfers to the Foundation. The liability, which represents the estimated future payments to be distributed over the beneficiaries' expected lives, is recorded at the present value using the discount rate in effect at the date the trust was established. The trust assets are included in investments.

Charitable Funds Held for the Benefit of Others

In accordance with accounting standards, if a nonprofit organization establishes a fund at a community foundation with its own funds and specifies itself as the beneficiary of that fund, the community foundation must account for the transfer of such assets as a liability. The Foundation refers to such funds as Agency Funds.

The Foundation maintains legal ownership of agency funds and, as such, continues to report the funds as assets of the Foundation. However, in accordance with this standard, a liability has been established for the fair market value of the funds.

Functional Allocation of Expense

The costs of providing programs and services have been summarized on a functional basis. Accordingly, certain costs have been allocated between program and the supporting services benefited. Allocations of expenses between functions is based on full time equivalent (FTE) headcounts and management's best estimates of the nature of work performed by department.

Tax-Exempt Status

The Foundation tax-exempt organizations under Section 501(c)(3) of the Internal Revenue Code and are only subject to federal income tax on net unrelated business income.

The Foundation follows the accounting standards for contingencies in evaluating uncertain tax positions. This guidance prescribes recognition threshold principles for the financial statement recognition of tax positions taken or expected to be taken on a tax return that are not certain to be realized. No liability has been recognized by the Foundation as a result of the implementation of this standard.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amount reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Concentrations

During the year ended March 31, 2022, there were no donor concentrations for contributions. During the year ended March 31, 2021, there was one donor which made up 12% of the total contributions.

Fair Value Measurement

The Foundation follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. It describes three levels of inputs that may be used to measure fair value:

Level 1 – Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market that the Foundation has the ability to access (examples include actively traded equity and fixed income securities, mutual funds or commingled pools containing securities that are actively traded and priced daily).

Level 2 – Financial assets and liabilities that are not actively traded or model inputs whose values are based on quoted prices in markets that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities that because of the size of the position, no active price is quoted (examples include small pieces of corporate or asset backed bonds for which an active market may not be quoted simply because of the position size, but larger positions of the same assets are regularly quoted and traded), and
- Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full term of the asset or liability (examples include certain mortgage and asset backed related securities or derivatives).

Level 3 – Financial assets and liabilities whose values are not readily observable and are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (examples include real estate, private equities, hedge funds or securities that are either in default and/or may be in a work-out situation, such as certain corporate bonds and structured investment vehicles).

- The Foundation also follows an accounting standard that allows entities the irrevocable option to elect fair value for the initial and subsequent measurement for certain financial assets and liabilities on an instrument-by-instrument basis. The Foundation has not elected to measure any existing financial instruments at fair value as permitted under this standard. However, the Foundation may elect to measure newly acquired financial instruments at fair value in the future.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Derivative Financial Instruments

The Foundation owns derivative instruments in its portfolio in both an indirect and a direct way. A derivative is a contract between parties based upon an asset or assets that has its value determined by fluctuations in the underlying asset. Indirectly, the Foundation invests in derivative instruments in a number of the commingled pools it owns. The underlying portfolio managers of these pools may use derivative instruments to gain financial exposure to individual commodities or to manage currency or duration risk. The Foundation owns derivative instruments directly in a separately managed account using futures contracts to securitize cash positions present in the Foundation's portfolio. The portfolio manager will buy, on a daily basis, a notional amount of financial and/or commodity futures targeting the amount of cash in percentages that closely mirror the Foundation's asset allocation. The use of derivative instruments allows the Foundation's portfolio to be fully invested with no more risk than if the cash were actually invested in physical commodities, stocks, or bonds. This is in keeping with the Foundation's Statement of Investment Objectives Policy that calls for its investment portfolio to be fully invested at all times. The use of derivative instruments for speculative purposes is expressly prohibited.

The purchase of derivative instruments to securitize cash positions involves placing a fraction of the notional amount of the derivative trade into a margin account (generally 10% to 15%) at the brokerage firm clearing the trades. While the actual purchase of the derivative instruments can be used to gain leverage, there is no leverage in the portfolio, as the cash collateral available within the fund would be available to cover any losses that would deplete the margin account.

As of March 31, 2022 and 2021, the Foundation owned 157 and 127 contracts with a notional exposure of \$20,957,752 and \$16,925,454, respectively. The notional exposure is included in the Foundation's investment portfolio. Gains for these futures were \$153,083 and \$6,344,741 for the years ended March 31, 2022 and 2021, respectively.

Revenue Recognition

Contributions are recognized when cash, securities or other assets, an unconditional promise to give, or notification of a beneficial interest is received. Conditional promises to give are not recognized until the conditions on which they depend have been substantially met. Administrative service revenue is recognized over time when the related services have been provided and earned. Any payments received in advance for these services are deferred to the applicable period in which the related services are performed.

As of March 31, 2022, the Foundation had \$18,760,000 of committed government grants for an economic revitalization program not yet recognized as revenue due to various conditions not yet met.

Guarantees

During the year-ended March 31, 2020, The Minneapolis Foundation entered into agreements with a bank to guarantee a portion of an affordable housing development project. The total guaranty amount as of March 31, 2022 is \$1,400,000.

**THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Subsequent Events

The Foundation has evaluated events and transactions for potential recognition or disclosure in these financial statements through August 25, 2022, the date the financial statements were available to be issued.

NOTE 2 LIQUIDITY

Financial assets are structured to meet the liquidity needs of the Foundation, both in terms of operating budget as well as grants and other expenditures. The finance committee of the board approves and periodically reviews the operating reserves policy which is designed to support operations during periods when an operating revenue shortfall may occur. The policy currently recommends a target of having at least six months of operating expenses in cash or short-term investments. As of March 31, 2022, the Foundation had operating reserves in cash or short-term investments that was in compliance with the operating reserves policy.

In terms of meeting the liquidity needs for grants and other obligations and expenditures, the following table outlines the Foundation's financial assets as of March 31, 2022 and 2021 that are available for expenditure within one year of that date. Assets are considered unavailable if they are not convertible to cash within one year, or if they are trust assets or endowment assets.

	<u>2022</u>	<u>2021</u>
Cash and Cash Equivalents	\$ 36,047,420	\$ 22,008,686
Investments - Cash and Short-Term Investments	48,682,343	53,986,958
Accounts and Pledges Receivable	236,431	1,017,730
Accrued Interest and Dividends Receivable	585,634	651,670
Total	<u>\$ 85,551,828</u>	<u>\$ 77,665,044</u>

The spendable amount (see spending policy in Note 1) from endowed assets, whether donor-restricted or board-designated, will be made available from these endowments within the next 12 months. The board may approve additional expenditures from board-designated endowments.

The financial assets of the Foundation are managed to become available as its awarded grants, general expenditures, liabilities and other obligations become due. The majority of other Foundation assets not included in the table above are redeemable on a daily or monthly basis to meet these needs. Cash in excess of daily requirements may be invested in money markets, sweep accounts and other short-term investments.

U.S. Domestic Equity investments can be structured as a commingled pool or collective fund for the purpose of providing a simplified option for investors who wish exposure to a large and widely diverse number of securities that are professionally managed. The Foundation's domestic equity commingled fund holds stocks with daily valuations and daily T+3 liquidity. The fund values its assets at fair value using readily available quoted prices from active markets trading in identical securities.

Non-U.S. Equity investments are often structured as a commingled pool with a partnership legal structure for the purpose of simplifying issues involving trading these securities and individual country tax codes. The Foundation's investments are with long only equity managers who purchase stocks with daily valuations and T+3 liquidity. Restrictive redemption terms (monthly) are imposed by the managers of the funds in order to accommodate and simplify the investment or withdrawal of money from their funds from numerous investors. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

The High Yield investment holds a diversified portfolio of value-oriented, high-quality, high-yield securities including notes, bonds, bank loans, and private debt of companies domiciled in the U.S., Canada and Western Europe. The fund generally carries a lower volatility, shorter average life, and shorter duration portfolio than the Barclays Capital HY benchmark. The average credit quality is generally BB- to B+ and generally no more than 5% is invested in any one issuer and no more than 15% in any one holding. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Global Fixed Income investments are often structured as a commingled pool with a partnership legal structure for the purpose of simplifying issues involving trading these securities and individual country tax codes. The Foundation's investment is with a manager who purchases only sovereign debt instruments with readily obtainable valuations and liquidity. Restrictive redemption terms (monthly) are imposed by the manager of the fund in order to facilitate the investment or withdrawal of money from numerous investors. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

Real Estate investments are structured as limited partnerships to accommodate the holding of illiquid real estate investments of various kinds. The Foundation's investments in real estate includes investing both with individual managers who buy and hold real estate investments directly in their respective funds and in a fund of funds format where they invest with a manager that purchases positions with various underlying managers. Strategies of these managers may include owning actual physical real estate, real estate investment products such as mortgages, shares of companies engaged in the real estate industry or currency hedges when real estate is purchased outside of the U.S. These instruments are typically illiquid until the underlying asset or investment pool enters a distribution or wind down phase. The unobservable inputs used to determine the fair value has been estimated using external and internal appraisals of property investments.

Long/Short Hedge Funds are investments with a fund of funds manager whose strategy is to invest with underlying managers whom it believes can provide the best possible risk adjusted return regardless of market conditions. Underlying managers may employ both long and short equity strategies; fixed income arbitrage strategies or other strategies it feels will help the fund accomplish its investment objectives. As underlying managers may provide infrequent valuations and impose liquidity restrictions or lock-ups on the fund itself, the fund of funds manager provides to investors quarterly valuations and liquidity options, but may impose a longer lock-up period on new money coming into the fund. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

Multi-Strategy Hedge Funds are investments with a fund of funds manager whose strategy is to invest with underlying managers whom it believes can provide the best possible risk adjusted return regardless of market conditions. Underlying managers may go both long or short on various securities, employ fixed income arbitrage strategies, invest in futures or forwards in addition to any number of other investment strategies. As underlying managers may provide infrequent valuations and impose liquidity restrictions or lock-ups on the fund itself, the fund of funds manager provides to investors monthly valuations but imposes longer lock-up periods on new money coming into the fund. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Commodity investments in a commingled pool with a portfolio manager who employs a long only strategy that includes investing in futures, publicly traded stocks, swaps and structured notes where appropriate. The investment strategy is to find the most attractively priced investment opportunities in metals, agriculture, energy, and financial instruments. Restrictive redemption terms (monthly) may be imposed by the manager of the fund in order to facilitate the investment or withdrawal of money from their fund from numerous investors. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

Private Equity and Venture Capital investments are structured as limited partnerships to accommodate the holding of illiquid assets, private equity, or debt instruments of various kinds. Liquidity within the investment pool occurs with periodic distributions or as scheduled during the wind-down phase. The unobservable inputs used to determine the fair value has been estimated based on the capital account balances reported by underlying investments.

The unobservable inputs for Beneficial Interest in Trusts are the underlying assets controlled by the trustee. The underlying assets consists of marketable securities that are either classified as Level 1 or Level 2 assets and the Foundation's fair value is determined by taking the trust's total value multiplied by their interest in the trust, as stated in the trust document.

NOTE 5 NOTES RECEIVABLE

The Foundation received a contribution of three separate unsecured note receivables each in the amount of \$16,000,000 during 2009. Each note accrues interest at 4.45% and is payable in interest only payments of \$712,000 payable on December 19, 2009 through December 19, 2013. Beginning December 19, 2014 through maturity of December 19, 2023, payments of interest and principal will be made on each note in the amount of \$2,017,093. In the event that a note is determined to be uncollectible, the Foundation may record the uncollectible amount as an allowance. The Foundation's management reviews the status of these notes to determine whether an allowance is necessary. At March 31, 2022 and 2021, there were no past due amounts and an allowance was not warranted.

THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021

NOTE 8 ENDOWMENT

The composition of endowment funds by type of fund are as follows for the years ended March 31:

	2022		
	Without Donor Restrictions	With Donor Restrictions	Total
	Other Endowment Funds	\$ 324,251,666	\$ -
Donor-Restricted Endowment Funds:			
Original Donor-Restricted Gift Amount and Amounts Required to be Maintained in Perpetuity by Donor	-	20,240,342	20,240,342
Accumulated Investment Gains	-	29,610,904	29,610,904
Total	\$ 324,251,666	\$ 49,851,246	\$ 374,102,912
	2021		
	Without Donor Restrictions	With Donor Restrictions	Total
Other Endowment Funds	\$ 298,095,317	\$ -	\$ 298,095,317
Donor-Restricted Endowment Funds:			
Original Donor-Restricted Gift Amount and Amounts Required to be Maintained in Perpetuity by Donor	-	20,240,342	20,240,342
Accumulated Investment Gains	-	26,218,706	26,218,706
Total	\$ 298,095,317	\$ 46,459,048	\$ 344,554,365

Other endowments funds include funds that are subject to the Foundation's spending policy under gift agreements or through board designation but allow for the distribution of corpus or are subject to the Foundation's variance power that allows for the ability to remove any restriction. The Foundation also has funds that are classified as with restrictions due to donor restrictions in which the Foundation applies a spending policy. These funds do not fall under UPMIFA requirements and the Foundation is not obligated to apply a spending policy but has determined that is prudent to apply the same spending policies to these funds. These funds are not included in the endowment fund footnote above.

Fund with Deficiencies

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor requires the Foundation to retain as a fund of perpetual duration. There were no deficiencies for the years ended March 31, 2022 and 2021.

NOTE 9 OPERATING LEASES

The Foundation has operating leases for office space and equipment. Annual rentals under the office space lease expiring August 27, 2027 include the base rent plus a proportionate share of the actual operating costs of the building as specified in the lease agreement. Annual rentals under the equipment leases for copiers and postage meters expire in various years through 2026. Total rentals paid during fiscal years 2022 and 2021 were \$567,813 and \$484,079 respectively.

Future minimum lease payments at March 31 are as follows:

<u>Year Ending March 31,</u>	<u>Amount</u>
2023	\$ 359,082
2024	358,506
2025	366,181
2026	373,855
2027	381,530
Thereafter	162,168
Total Future Minimum Lease Payments	<u>\$ 2,001,322</u>

THE MINNEAPOLIS FOUNDATION
NOTES TO FINANCIAL STATEMENTS
MARCH 31, 2022 AND 2021

NOTE 10 RETIREMENT PLAN

Effective January 1, 2020, regular full-time and part-time employees who have completed at least one year of service are eligible to participate in a 401(k) plan which provides for annual discretionary contributions to eligible employees. Prior to this, the Foundation had a Simplified Employee Pension Plan (SEP) with the same eligibility requirements for annual discretionary contributions to the plan. In fiscal 2022 and 2021, the discretionary contribution percentage was 8% of employees' compensation. Retirement plan expense was \$426,071 and \$534,816 for the years ended March 31, 2022 and 2021, respectively.

NOTE 11 RELATED PARTY TRANSACTIONS

As an affiliate of TMF through January 21, 2021, Propel Nonprofits paid for a share of certain business and liability insurance expenses covered by blanket policies held by TMF. TMF made grants to Propel Nonprofits totaling \$141,250 during the year ended March 31, 2021, for leadership and financial capacity building.

TMF has a promissory note agreement with Propel Nonprofits for purposes of extending loans to local nonprofit organizations. The note bears interest at 2% annually. This \$1,000,000 promissory note agreement was signed with Propel Nonprofits during the 2018 year, bearing interest at 2% annually and due on July 17, 2024.

All related party transactions were eliminated in the financial statements.
